

Bimix - Trimix

Cod. 3000 - 3753

Description

These units allow to dilute two neat products (BIMIX cod. 3000), or three neat products (TRIMIX cod. 3753), delivering the ready-to-use solution directly to the bottle, canister, bucket etc. The minimum required water pressure is about 2 bar, and the concentrations can be set by a s.s. orifice plate, available in 15 sizes.

Main features

Neat products	max. 3
Water pressure (dynamic)min.	2 bar
Water delivery	about 10 lts/1'
Max. conc.About	35%
Height above froor	2 mts. Max.
Water inlet	3/8"
Weight	2 kgs.
